WEEK 2018

FACE OF ACE

Introducing Bronwyn Trebilcock

The Building Family Opportunities program referred Bronwyn to the Barkuma 'Pathways to Work' ACE program at Uniting SA in January 2018.

Bronwyn had not worked for 6 years and her job seeking confidence was low, with Bronwyn sure that her job seeking methods were not going to bring her success. Participation in the ACE program gave Bronwyn the confidence she needed. Trainers confirmed that Bronwyn's job search methods and tools were sound. She realised during the course that she could be of assistance to other learners, openly sharing her knowledge and providing encouragement and support to other learners throughout the program.

"This ACE course has re-affirmed me. I have realised that I can confidently 'be myself' when applying for jobs. I have the confidence to express myself more openly in job applications and interviews".

After a very detailed recruitment process, Bronwyn has been offered work in a call centre, beginning with 5 weeks full time introductory training. She has the confidence to continue her learning in any opportunity that may arise in the future.
