NATIONAL DISABILITY INSURANCE SCHEME (NDIS)

GETTING THE HELP YOU NEED TO LIVE THE LIFE YOU WANT TO LIVE

People living with a disability have the same rights as other Australians including the right to a dignified and meaningful life. Australia's National Disability Insurance Scheme (NDIS) can assist people living with a disability to understand their individual choices and make decisions that best support their needs.

What is the NDIS?

The NDIS provides people living with a disability the services and supports they need to achieve their goals. These may include developing skills for living more independently, taking a more active role in the community, finding a job and purchasing the equipment and care they need.

Am I eligible for the NDIS?

To be eligible for the NDIS, a person must:

- Have a disability that will not go away and which prevents them from taking part in everyday activities. This can be a physical or intellectual disability, as well as a learning disorder or mental health condition.
- Be aged under 65 when they enter the NDIS.
- Be an Australian citizen or holder of a permanent visa or Protected Special Category visa.
- Live in an area where the NDIS is available.

The NDIS and disability support pension are not the same. If a person is eligible for and receives a NDIS Plan it should not affect their approved Centrelink disability support pension payments.
