# Children's fun physical activities

#### Walk the line

Aim To improve balance skills

Age 3-5 years

**Equipment** Markers, chalk, masking tape, balance board or beam

Area required Indoor or outdoor space of suitable size

Time 10 minutes

How? Using chalk or tape, mark one line on the ground for each child. Demonstrate the movement activity and then ask children to complete each of the following actions along their line (or balance beam): Pretend to be walking along a tightrope Walk different ways: forwards, backwards, sideways Step over beanbags on the beam or line Jump along the line and back Hop or side-sliding.

**Easier** Use only the easier movement skills. Make the length of the line shorter. Use a wide balance board (approx 20cm) placed on the ground instead of a chalk line.

Harder Ask the children to jump, side slide and run along the line in different ways (forwards, backwards, side-wards). Place beanbags on the line that children have to step over. Ask children to walk heel to toe along the line (this is harder than taking a step). Use a narrow balance board placed on the ground or raised a short distance.

**Key points** Children should face forward looking at the line, with arms out to the side for added balance. Children to place one foot in front of the other slowly, ensuring each foot is positioned along the line. Children to try to keep body upright as they walk along line, rather than wobbling from side to side.

#### Musical statues

Aim To develop jumping and galloping skills

Age 3-5 years

**Equipment** Music player and music that the children are familiar with

Area required Indoor or outdoor space of suitable size
Time 10 minutes

How? Use a suitable area so the children have room to move without bumping into each other. You will need to demonstrate each skill and the children may need to practise before adding the music. Next, ask the children to move around the space to the music using a skill that you call out (e.g. jumping like a kangaroo or galloping like a horse). When the music stops, the children must freeze on the spot like a statue. When the music starts they move around again using a different skill. Make this activity non-competitive so all children remain in the game. You could ask each child, in turn, to pick the movements that the other children should copy.

**Easier** Use music with a slower beat and ask the children to do the actions slowly.

**Harder** Ask the children to change direction when doing the locomotor skills e.g. jumping forwards, then sideways etc.

Key points Skills involved in jumping: Stand with feet shoulderwidth apart on the line Bend the knees Bring arms behind the body Push off with the feet Extend the legs with force Swing the arms forward and upwards for the jump and land with them out in front for balance. Skills involved in galloping: Arms bent and lifted to waist level at takeoff Step forward with the lead foot followed by a step with the trailing foot to a position next to or behind the lead foot There needs to be a brief period where both feet are off the floor Maintain a rhythmic pattern for at least four consecutive gallops.

If you would like your program promoted in this guide, please contact North West Adelaide Communities for Children on cfc@unitingsa.com.au

## Important numbers

#### The Smith Family Learning Club Tutors Looking for volunteer tutors

Learning Clubs provide a safe and supportive out-of-school learning environment where primary or secondary students can participate in activities that develop their academic and social skills.

- Are you keen to make a contribution through donation of time?
- Do you want to make a difference to young people in need, through education?
- Are you looking to meet new people and see the impact of your volunteering first-hand?
   Becoming a volunteer tutor gives you the chance to support students in their educational and personal development.

The Smith Family is currently recruiting Learning Club volunteer tutors.

#### Can you help?
