

NDIS Participant Emergency Response Plan

UnitingSA has created a NDIS Participant Emergency Response Plan.

When you see 'we' it means UnitingSA.

This helps us support you to keep safe in an emergency.

It might have things like:

- Who you are and where you live
- The supports you receive
- Medical and health information
- Your emergency contacts.

The form can help you be ready for an emergency.

An emergency can be things like:

- An accident
- A flood
- A health issue

YES

NO

This plan lets you tell us how you would like to be supported if an emergency happens.

You can choose not to complete this form.

You can also talk to your family about how you can be supported if an emergency happens.

You get a copy of the finished form.

We keep a copy of the form too.

If an emergency happens, we use the form to make sure your support needs are met.

An emergency may not happen, but if you have a plan you can say what you want to happen with your supports.
