

What will it cost?

The Australian Government provides funding for Home Care Packages, but you will be asked to contribute to the cost of your care. The amount you pay will be determined by your income.

If you don't wish to wait for funding approval, or are not entitled to government funding, and want to start receiving services straight away, you have the option of buying services through our self-funded service program.

This could be as a one-off service or a bundle of services. Our self-funded services are flexible and easy to arrange.

HOME CARE SERVICES

Live at home with our help

Our Home Care services will help you live an independent lifestyle in your own home for as long as possible.

We can support you to remain happy and safe with a package of services designed around your freedoms and needs.

How does it work?

We work closely with you to ensure that the support you receive is tailored to your assessed care needs.

- First, you will need to contact My Aged Care on 1800 200 422 and arrange an assessment by an Aged Care Assessment Team (ACAT).
- The ACAT assessment will determine the level of support you can receive.

We understand it can be complex. But there’s no need to worry — we’re here to guide you through the process.

What will you receive?

- A package of services designed by you and delivered by friendly, familiar staff
- A flexible, professional service
- A monthly service statement identifying your budget and services provided
- Experienced advisors supporting you to maintain control of your life
- The option of language and cultural support
